

**10,000 LAKES CHAPTER**  
INTERNATIONAL CODE COUNCIL

## **10,000 Lakes Chapter of ICC**

### **2018 IBC Building Classifications**

**June 13, 2023**

**Presented by ICC Instructor Doug Thornburg**

#### **Learning Objective**

*This seminar addresses the key issues of the 2018 International Building Code® (IBC®) regarding the proper classification of buildings. The process for correctly evaluating a building for code compliance relies on a systematic approach to the determination of occupancy classification and construction type. Everything starts with the correct building classification! A clear understanding of the classification process provides the groundwork for the proper application of many other important code provisions.*

*Participants will be able to assign the appropriate occupancy classification, use Table 601 to assist in building classification, and gain an understanding of the varied provisions of Chapter 5 regarding allowable building heights and areas.*
